CURRICULUM VITAE

SMRITI SINGH

Student , Full-stack developer

LinkedIn GitHub

PROFESSIONAL SUMMARY

EDUCATION

ain (Deemed-to-be) University | Bengaluru, India

SGPA:

Relevant Coursework:

Saint Joseph's School | NTPC Kahalgaon

TECHNICAL SKILLS

LANGUAGES : JavaScript (ES6+), Java

FRONTEND

BACKEND :

DATABASE

TOOLS :

SELECTED PROJECTS

1. *FileDeck:* Secure Cloud Storage Application (MERN Stack)

- **Technologies:** React, Node.js, Express.js, MongoDB, Multer
- Engineered a secure, full-stack file storage solution enabling user-specific file upload, retrieval, and management.
- Designed a hierarchical file structure within MongoDB, allowing for efficient navigation and retrieval of user-specific documents via **RESTful API endpoints**.
- Implemented user authentication with **JWT** to ensure strict access control and file ownership verification for all actions.

2. *FinTrack:* Personal Finance Dashboard (MERN Stack)

- **Technologies:** React, Node.js, Express.js, MongoDB, Recharts
- Developed a MERN stack application for end-to-end tracking of personal income and expenses.
- Implemented **stateless authentication** using JSON Web Tokens (JWT) for secure user sessions and **RESTful API** protection.
- Designed the front-end dashboard with dynamic data visualization, utilizing **Recharts** to display financial trends and expense breakdowns.
- Ensured data stability and performance by employing the useMemo hook to cache calculated chart data.

3. *MemoDeck:* Collaborative Note-Taking Application (MERN Stack)

- **Technologies:** React, Node.js, Express.js, MongoDB, React Router
- Developed a **Single-Page Application (SPA)** using React Router to enable full **CRUD functionality** for user notes (Create, Read, Update, Delete).
- Engineered a backend with **RESTful API endpoints** to manage MongoDB persistence and ensure data integrity.
- Focused on clean UI/UX for quick entry and retrieval of text-based information.
